

Synopsis: Blue Skies Of Texas

Orphaned and penniless, Victoria Caldwell has no choice but to leave New York City for the primitive wilds of her uncle's south Texas ranch. As if the heat and humidity weren't enough of a bad welcome, her stage coach is held up and the powerful, masked leader of the gang insists on searching her person. All she can see is his mesmerizing grey eyes, but she's all too aware of his gentle touch—everywhere.

Grateful that she is released and safe, her uncle introduces her to his trusted foreman, assuring her that Luke Ahrens will be there to protect her from now on.

The only problem—he was the bandit who robbed the stage. She would never forget those eyes—or his hands.
