

## Synopsis Moment In Time

Magic lives in a moment that knows no time....

Jennifer Leodengras may be the Homecoming Queen and head cheerleader dating handsome football captain and class president, Turo Camden, but their world is far from perfect.

Drug use is wide-spread in their school. Bullies abound and gang members stare each other down in long, narrow hallways. Chivalry is not only dead, but it took courtesy and kindness along with it. Students are withdrawn, eyes firmly fixed on smart phones to avoid confrontations.

But hope springs eternal and Jennifer refuses to believe such conditions cannot be changed.

Little does she know when she befriends a French exchange student in history class that history will be changed forever.
