

Synopsis: One Midsummer's Knight: A Misty Knight

Often whispered about as a changeling because of her different colored eyes, Lynet gathers herbs in the gloaming light of the forest in preparation for the Midsummer Night tournament. She encounters a gorgeous man with a huge white hound who introduces himself as Lucian, a knight-errant who will be participating in the tourney. She is surprised that he actually flirts with her.

But Lucian isn't mortal. He's the son of the demi-god Cernunos. His father is not pleased that he was trying to seduce a mortal and takes away his powers, telling him that if he wants to compete in a human tournament, he will do so as one.

Lucian doesn't much care until Lynet is accused of witchcraft and is in danger of being burned-at-the-stake. He begs his father to restore his powers so he can save her, but Cernunos refuses. Lucian must rescue Lynet as a human man. A concept that is totally foreign to him, but one he must accept if she is to live.

Then again, magic can happen on a Midsummer Night...
