

Synopsis: My Noble Knight

Searching Scotland for the stolen Philosopher's Stone taken from her priestess mother, Deidre of the Languedoc discovers a mystic truth that could change the course of Time.

In the dark of night, fires flare and passions burn bright. It is Beltane, an evening of Pagan revelry and wanton sexuality. There is magic in the air—and danger.

Caught in the spell of the sensual spectacle before her, Deidre is saved from near rape by the darkly handsome Gilead Mac Oengus, a man of virile strength and masculine perfection. He promises her safety in his family's castle, but once there, Deidre is quickly thrust into the midst of familial scandal and marital strife.

Observing the Beltane festivities from afar, Gilead quickly comes to the aid of the young lass whose story of an attack by bandits leaves him skeptical, but whose beauty leaves him spellbound. Gilead senses Deidre is hiding something from him and, with a Saxon invasion imminent, knows he must respond with reason, not passion. Yet how can he resist this bewitching temptress, the won whose desire matches his own?
